

IIMHL & IIDL Annual Report 2020

Welcome to the 2020 IIMHL/IIDL annual report. 2020 was challenging and one we could not have anticipated when we closed 2019. We are grateful to our sponsors, members and our colleagues around the world for supporting us and adapting to new ways of working and connecting.

This is testimony to our colleagues' commitment to continuing to show leadership and share best practice, learning and ideas. Despite the uncertainty and challenge 2020 brought to us we found ways of sharing experiences and insights to help find solutions to help improve people's lives. The activities outlined in this report show the value that those working in mental health and supporting people with disabilities place on the relationships, connections and content that our membership offers.
