

## FAQs: 2024 Global Leadership Exchange

### Leading Change: Flourishing Communities and Wellbeing for All

#### **What is a Match?**

A Match is a two day in person meeting on a specific subject or topic. Most matches will take place in the Netherlands and all matches will be held on June 24 and 25, 2024.

Each Match will involve between 10 to 20 people. There is a host who, along with people from other countries, will discuss the same subject and share their knowledge with each other.

Together, they develop the plan for the two-day meeting, which is why you should choose the subject you are interested in as soon as you can, so you can be part of the planning of the agenda and program for the Match.

#### **What are the topics of some of the Matches?**

For **IIMHL**, some of the topics are: Peer Leadership, Emerging Leaders, Suicide Prevention, Child and Youth Mental Health, Wellbeing in Cities, Indigenous Leadership, Addictions Leadership, to name a few.

A full list will be available on the IIMHL website in November.

For **IIDL**, some of the topics are: Co- Design and Co-Production, Advances in Self Direction, Leadership Across Government: Implementation of UNCRPD, Disabled Person Advocacy and Leadership, Service System Transformation, Local Area Coordination and Family Leadership, to name a few.

A full list will be available on the IIDL website in November.

#### **What is the Network Meeting?**

The Network Meeting is a two and a half day face-to-face meeting, starting with registration in the afternoon of June 26 and an opening reception that evening, continuing with two days of networking and discussion sessions on June 27 and 28, 2024.

#### **Can I do just one of these options – Match or Network Meeting?**

Yes, you can. Although, we recommend you do both as this will give you the best experience of connecting with leaders from around the world to share what works in mental health, substance use and disability. Also, leaders who travel from long distances will want to attend both as this will be the best value for their travel expense.
